Facility Name KinderCare

License No. 3629

Subchapter 11 Buildings and Grounds

Deficiency: Rule 1.11.2(2) States in part "Rooms in which Infants both play and sleep shall have a minimum of 40 square feet of usable space per child."

Findings: It was observed while touring the facility that Classroom 5 was being used as a temporary infant room while classrooms 3 and 4 are being repaired due to ceiling damage. There were 15 infants. This room was initially measured for 10 toddlers per the signed max capacity worksheet & floor plan OR 8 infants. This caused the room to be over capacity by 7 infants.

POC: Director Nicole Lewis moved to children to classroom 6 which holds 20 infants.

7 children were placed in cribs and 7 (8 mos + up) were placed on cots. One child was picked up by parent. Facility will correct 20 before changing rooms. A new capacity worksheet reflecting capacity for ~~20~~ infants/toddlers/preschool will be completed for each room.

\* For emergency purposes only Classroom 5 & 6 may share a changing table. Once this specific situation is corrected, the facility will ensure All classrooms with diaper wearing children will have ~~at~~ a diaper changing table physically located within that classroom. Classrooms will not be allowed to share changing tables past this specific emergency situation. Facility has 30 days to add changing tables.
