Findings/Comments: Upon arrival, licensing official and supervisors meet with designee, T. Bennett.

The purpose of this visit was acknowledged. The facility has requested to add school age children to the child care program and would like to get approval from MSDH.

Supervisor has requested the facility to submit a detailed summary of what the facility would like to change.

In room # 1, the classroom capacity is 13; this classroom is immediately to the right when you enter front entrance. Currently this room is for four year olds. The owner, Ms. Bennett would like to have this classroom used for afterschool children beginning at 2:30 p.m. The plan per Ms. Bennett would be to combine four years old with the older three year olds in classroom #4; that has a room capacity of 15. It was explained to Ms. Bennett that at no time if this is tentatively approved the classrooms should not exceed room capacity, and the school-age children should not at any time be combined with the children birth- 4 years of age.

Ms. Bennett will be sending a detailed tentative plan of how she would like to add another restroom in Kitchen for the afterschool children to use. This was only a technical assistance visit.
