Findings/Comments

- Technical Assistance was given on both playgrounds surfacing App D 2.4.
 - The playground on the right side (with rubber mulch) needs to be worked in the use zones or more mulch needs to be added.
Rubber mulch should be 6 inches deep.
 - The playground on the back with wood mulch should have 9 inches of wood mulch in use zones.
When the existing mulch degrades, maintenance should be done as the rubber tiles.
 - Please give Anna a call if you have any questions regarding mulch or see App D of the Child Care Regulations.
- Please fluff mulch on the next good weather day.
Please contact Anna when mulch is worked.
